1. OBJECTIVE OF SPRINT

The objective of the sprint was to lay the foundation of the project and designing the basic architecture of the project and implementing few features. We planned the below task to achieve this goal

USER STORY 1. DF

[CP8117P13-14](#) Restaurant owner food creation and posting

USER STORY 2.

[CP8117P13-13](#) Restaurant owner entry and interaction with our system.

2. LIST OF TASKS OR ACTIVITIES

For better understanding and work division, we divided tasks into the subtasks listed below.

A. SUBTASK FOR USER STORY 1

CP8117P13-18	Create restaurant list page
CP8117P13-19	Add food page
CP8117P13-20	Food list API
CP8117P13-21	Food creation api
CP8117P13-23	Testing the Functionality

B. SUBTASK FOR USER STORY 2

CP8117P13-15	Make login page and signup page
CP8117P13-16	Login API
CP8117P13-17	Signup API
CP8117P13-22	Testing the Functionality

3. PROVISIONAL PLANNING

JIRA ID	Start Date	End Date	Duration	Assignee	Dependabilities	Provisional Artifacts
CP8117P13-18	June 16	July 2	30 hrs	Avinash Gupta	N/A	NA
CP8117P13-19	June 16	July 2	30 hrs	Arshdeep Kaur	N/A	N/A
CP8117P13-20	June 16	July 2	30 hrs	Shafkat Waheed	NA	Api-Documentation.pdf
CP8117P13-23	June 16	July 2	15 hrs	Harjinder Gill	CP8117P13-18 , CP8117P13-19 , CP8117P13-20 CP8117P13-21	Testing.pdf

CP8117P13-15	June 16	July 2	30 hrs	Roxy Leonard Palma	N/A	N/A
CP8117P13-16	June 16	July 2	30 hrs	Anubha Sharma	N/A	Api-Documentation.pdf
CP8117P13-17	June 16	July 2	30hrs	Tanya Agarwal	NA	Api-Documentation.pdf
CP8117P13-22	June 16	July 2	30hrs	Harjinder Gill	CP8117P13-15 CP8117P13-16 CP8117P13-17 CP8117P13-21	Testing.pdf
CP8117P13-21	June 16	July 2	15 hrs	Priyam Dua	N/A	Api-Documentation.pdf

4. EFFECTIVE PLANNING

Task Details	JIRA ID	Start Date	End Date	Duration	Assignee	Produced Artifacts
Creation of page containing the list of restaurants - UI	CP8117P13-18	June 18	June 24	12 hrs	Avinash Gupta	N/A
Creation of add food page -UI	CP8117P13-19	June 20	July 2	8 hrs	Arshdeep Kaur	N/A
Creation of food list API	CP8117P13-20	June 18	July 2	10 hrs	Shafkat Waheed	Api-Documentation.pdf
Create and design the API for food creation/add page	CP8117P13-21	June 21	July 2	13 hrs	Priyam Dua	Api-Documentation.pdf
Testing the Functionality by doing checking restaurant list	CP8117P13-23	June 28	July 2	8 hrs	Harjinder Gill	Testing.pdf
Make login page and signup page - UI	CP8117P13-15	June 23	July 2	12 hrs	Roxy Leonard Palma	NA
Creation of login API	CP8117P13-16	June 23	July 2	16 hrs	Anubha Sharma	Api-Documentation.pdf
Creation of Signup API	CP8117P13-17	June 28	July 2	16 hrs	Tanya Agarwal	Api-Documentation.pdf
Testing the Functionality by doing signup/login	CP8117P13-22	June 28	July 2	8 hrs	Harjinder Gill	Testing.pdf

5. LIST OF FAILURES/ INCOMPLETE TASK

1. Few bugs were found during this milestone which would be fixed in the next sprint.

6. CHANGES

1. Image section was newly identified and will be working on this in next sprint, we have introduced JPA in our project as a backend technology

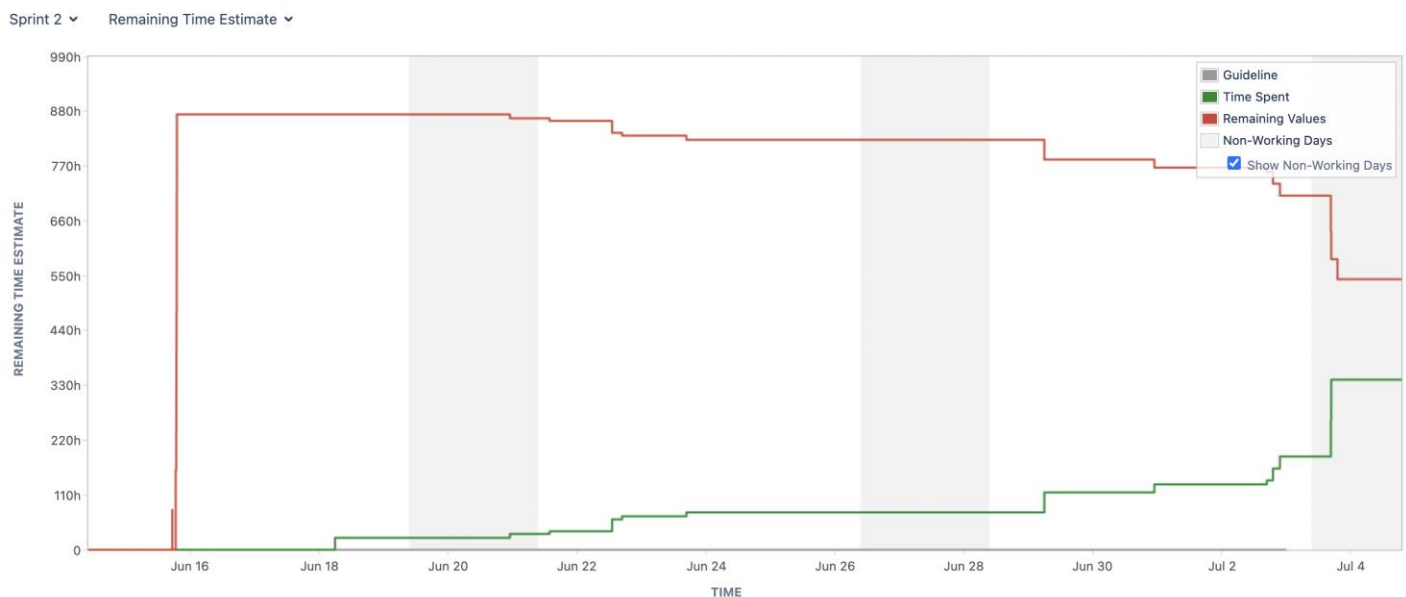

7. EVALUATION OF THE SPRINT

All the tasks assigned to the scrum team were completed within the given time frame. Total of 9 tasks were completed in this sprint.

Below are our learnings from this Sprint

1. Team was regularly logging their work on JIRA as discussed in last sprint by following proper workflow.
2. During this sprint, we found out that we assigned team members with their respective roles whether be it for front-end or back-end for creating APIs, but we didn't create any specific task for the integration of both and hence faced a little issue at the last but eventually everything was completed before time.
3. While working on the sprint, we found out that one of the tasks mentioned in milestone 2 was dependent on another task of milestone 3 and hence we had to swap those tasks.
